TECHNICAL SKILLS

Python / SQL	Intermediate
Vibe Coding	AI Dev
PHP / HTML	Web Dev
Networking	Cisco

SOFT SKILLS

Proactive & self-driven
LEAN Continuous Improvement
Cross-functional Collaboration
Structured Problem Solving
Stakeholder Communication
Multicultural Adaptability

LANGUAGES

Arabic — Native
French — Professional
English — Professional

PROFILE

Web and web-app developer based in Tangier, with 5+ years of hands-on experience inside container terminal operations — vessel discharge, vessel loading, and yard storage/stowage — which gives him firsthand insight into the operational problems his software solves. Daily hands-on use of enterprise operations systems for terminal operating, logistics, equipment control and block management. Strong engineering background in IT, Security & Decision Engineering (ENSA). Combines that operational knowledge with data analytics skills (Python, SQL) and a LEAN continuous-improvement mindset to build AI-assisted ("vibe-coded") web tools — six shipped so far, several of them used daily inside real operations.

EXPERIENCE

Container Terminal Operations

Tangier · 2019 – Present

Discharge · Load · Yard Storage · LEAN · KPI

Handles the full container operations cycle — vessel discharge, vessel loading, and container storage/stowage in the yard — ensuring accuracy, speed and safety at every stage. Daily hands-on use of enterprise operations systems for real-time tracking, yard planning and equipment coordination. Proactively identifies operational bottlenecks and proposes data-driven improvements aligned with LEAN principles. Collaborates cross-functionally with Operations, Planning and IT/OT teams to keep terminal flow smooth.

Biomedical Equipment Maintenance (Trainee)

Tangier · 2018 · 2 months

Two-month practical training in biomedical equipment maintenance and troubleshooting. Developed structured analytical skills applied to diagnosing and resolving technical issues under operational constraints.

EDUCATION

IT, Security & Decision Engineering

National School of Applied Sciences (ENSA) · 2021 – 2023

Bachelor of Fundamental Studies in Electronics

Abdelmalek Essaadi University · 2018 – 2019

General University Diploma in Physics

Abdelmalek Essaadi University · 2014 – 2018

CERTIFICATIONS & CONTINUOUS LEARNING

Cybersecurity — IBM

Coursera / IBM · 2022

Cybersecurity fundamentals, threat models, and real-world case studies.

Artificial Intelligence — IBM

Coursera / IBM · 2022

AI concepts, machine learning tools and applied case studies.

PHP & SQL Database

Sololearn · 2021

Dynamic web development, database management, functions and subqueries.

Vibe Coding — AI-Assisted Development

Self-directed / Independent projects · Ongoing

Building and shipping web products and internal tools with AI-assisted coding — six projects live to date, spanning public web apps and operations software built for others. Full case studies at arg046.com.
